OF MONTANA SCHOOLS

PLEASE RETURN

NANCY KEENAN • SUPERINTENDENT
OFFICE OF PUBLIC INSTRUCTION

When the first telephone lines carried the human voice across Montana, people never could have dreamed that one day they would carry computer files, FAX messages, and video images as well.

Today's technology offers many marvelous new tools for sharing information. And here in the Information Age, access to information is more essential than ever for getting business done. This is especially true for the business of educating children.

Already, FAX machines and computer modems are becoming as common in schools as chalkboards. Soon all schools will have them. In the meantime, much of the information we need is still just a phone call away. The Office of Public Instruction created this directory to help link Montana's education community and to help give you access to information. I hope you will find it useful.

STATE BOARD GOVERNANCE

Structure

The Board of Public Education, exercising general supervisory responsibility and in most cases acting on the recommendations of the Superintendent of Public Instruction, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g. accreditation and teacher certification). The control and supervision of the School for the Deaf and Blind is vested in the Board of Public Education.

The Board of Regents is vested with full power, responsibility and authority to supervise, coordinate, manage and control the Montana University System and also to supervise and coordinate community colleges and vocational-technical centers.

The members of the Board of Public Education and the Board of Regents, meeting together, form the State Board of Education which has responsibility for submitting unified budget requests for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems. The Governor serves as president and the Superintendent of Public Instruction as secretary of the State Board of Education.

Membership

The Board of Public Education and the Board of Regents each have seven voting members appointed by the Governor with the consent of the Senate. Neither board may have more than four voting members from the same congressional district nor from the same political party or organization. The term of office for appointed members is seven years, except for the student appointee to the Regents whose term varies. The Board of Public Education also has a non-voting student member who has a one-year term.

The Governor, Superintendent of Public Instruction and Commissioner of Higher Education serve as ex officio, non-voting members on both boards.
